

Deb,

We would like you to know you have impacted our lives. Your living and giving of yourself in our families and the Oklahoma Master Locksmith Association group will never be forgotten.

Some of us may think of the time one of our members asked if you would marry him. We remember you asked what he meant, we said that he and all of us really thought your cooking was "GREAT". Also, some of us, along with that gentleman, like to EAT and the way you prepared and organized the meals was nothing but "OUTSTANDING".

We also enjoyed the prizes you were able to buy for the OMLA drawings, but, most of all, the way you shared your life. You have a way of bringing your family with you and they all were so giving and doing everything possible to make our time together very pleasant. You also had a way of bringing each of us into being a part of your family.

Now that you are physically leaving us and spiritually into a higher level, we all miss you. However, you will always "live" in our hearts and memories.

We won't say "Good Bye" but ALOHA till we meet again.

Your friends at OMLA
